Gorgeous glass

Bold colour is a big trend for kitchens this season. For a sophisticated twist, check out the new Emerald shade in Alno's Art Pro range, from £15,000, 0870 433742, alno.co.uk. The high-gloss finish of the glass cabinet fronts is teamed with sleek wood effect units for a contrasting look. The low storage unit shown here is great for a relaxed seating area.

Green credentials

Q I'm fed up of my plastic kitchen composter.

Where can I find a stylish version?

A What about this lovely ceramic pot design from Orla Kiely, £55, BlissHome, 01789 400077, blisshome.co.uk, showcasing her popular multi-stem pattern? It will allow you to store food waste in the kitchen without anyone realising its contents. It even has a replaceable filter so it won't start to smell in warmer weather.
