Branching Out

Italian furniture designer and maker Andrea Felice combines metallic minimalism with spiky organic forms

NOVEMBER 2010 / £5.50

▲ **Triflow Concepts (100% Design)**

Triflow Concepts, the leading UK brassware manufacturer, stole the show once again at this year's 100% Design with its latest innovation: The Triflow Quadro System. The Triflow Quadro builds on the existing, patented Triflow system with the introduction of instant hot, filtered water heated to 98°C, all from a single appliance. Like all Triflow Systems, filtered water is delivered through a dedicated tube in the spout, to avoid cross-contamination. The Quadro incorporates a filter cartridge which leaves all beneficial minerals intact, while eliminating harmful chemicals and bacteria. *ENQ 439*

▲ **Elstead Lighting (Decorex)**

Elstead Lighting showcased the beautiful Christina 18 light chandelier at Decorex 2010. The Christina 18 light chandelier is hand finished in a Silver/Gold Patina. It features intricate olive leaves, fine crystal drops, beautiful cut-glass sconces and is arranged over two tiers to provide an impressive centre piece. The Christina range also includes a 2 light wall fitting and smaller 3, 5 or 8 light chandeliers which are convertible to semi-flush. For the whole collection request the new Elstead Lighting Catalogue 14. *ENQ 448*

▶ **Lucy Turner (100% Design)**

Lucy Turner has received national critical acclaim. Exciting and distinctive, Lucy utilises the latest technologies and materials in the creation of her bespoke contemporary furniture. Her unique process is transferable across the spectrum of interior design. Shown here is the Teal fern sideboard. This piece is 2.1m long and produced in teak with teal and white laminate. *ENQ 449*

▶ **Formica (100% Design)**

Formica Group showcased its new and exciting Collection at 100% Design, London. Demonstrating how it continues to innovate and lead the way with vibrant colourways, premium textures and designs, it attracted architects, designers and specifiers from around the world. New premium texture Rigato by Formica Group could be seen alongside striking introductions to the on-trend Colors range. The Collection inspired visitors with new patterns; Mode, Geo, Dogbone and Strand together with new and exclusive wood designs. AR Plus by Formica Group, Sculpted by Formica Group, DecoMetal and the versatile Formica-Unilin MFC Collection were also on show. *ENQ 417*

▶ **Veedon Fleece (Decorex)**

Working with architects and designers on a purely bespoke basis for residential and commercial interiors, every Veedon Fleece commission is made exclusively to client specification using muga, pashmina, silk, veedon and best hand spun Tibetan wool. Choose from Veedon Fleece's extensive archive collection of classical and contemporary designs or provide them with your unique design interpretation. *ENQ 443*
